

Android Services & Solutions

L&T Infotech is one of the fastest growing IT solutions/services companies with a strong focus on providing software solutions for the Telecom Industry. The Mobile Devices Group at L&T Infotech provides end-to-end software services to Handset OEMs, ODMs, Platform Vendors, ISVs, Mobile Entertainment & Media companies and Telecom Service Providers. Our expertise cuts across all the layers of mobile devices ranging from physical/ hardware layer, OS, device drivers, protocol stacks, middleware components, MMI framework and Applications.

Android is a leading platform for the majority of smartphones today. With Google promoting the Android Platform and its inherent open nature, it has become popular among the developer community. The commercialization of Android is gaining momentum with the release of Android-based handsets by many Handset vendors and increased focus by Telecom Services Providers on launching Android-based devices. The Android Marketplace offering a plethora of applications for the end users is a key reason behind the wide acceptance of Android-based devices.

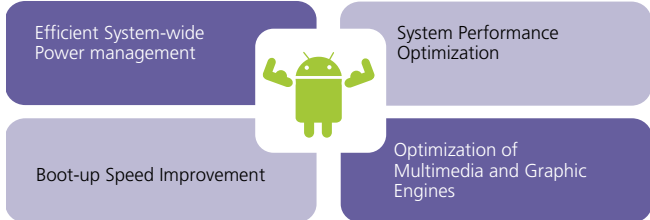

As one of the early movers in the Android area, L&T Infotech had made significant proactive investments in developing skill-sets around Android. As a result, L&T Infotech has been working with Leading Handset OEMs, Platform Vendors and Telecom Service Providers in the Android area. With a successful track record and as an OHA Member, L&T Infotech is a trusted Android Commercialization Partner.

For Android Commercialization, the bouquet of Services that L&T Infotech offers is as follows:

Android Booster Services

Android has become a Platform of Choice for many OEMs worldwide and all OEMs are always looking for boosting the device performance and new features upgradation. There is a growing need for device and platform vendors to align their Android-based product releases to the latest Android release. L&T Infotech helps in this quick alignment and transition by integrating new Android releases and also providing support in feature enhancement and upgrades. L&T Infotech offers "Android Boosters" for enhancing the system performance and user experience.

Service Spectrum

OHA Member

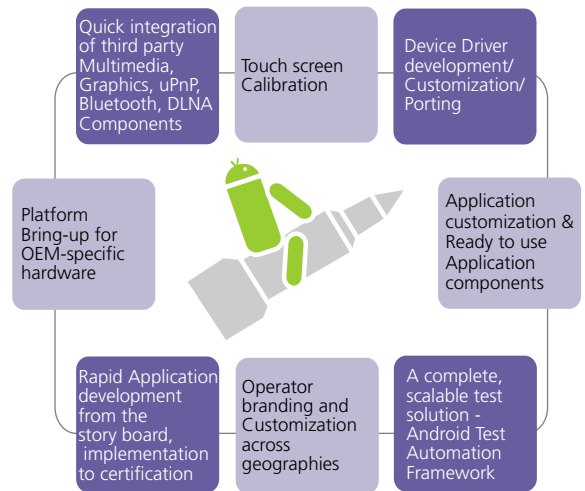

L&T Infotech is an active member of Open Handset Alliance.

OHA has developed Android™, the first open & free Mobile Platform. OHA is a partnership of more than 65 global mobile industry leaders who have come together to accelerate innovation in mobile technology and to offer consumers a unique, simplified, less expensive and better mobile experience.

Android Launch-pad Services

With increasing appetite of the global mobile user base for new devices, it has become imperative for device vendors and Telecom Service Providers to launch devices with minimal lead time. L&T Infotech offers its specialized 'Android Launch-pad Services' to its clients.

Enterprise Mobilize Services

Mobile deployments in businesses are growing at an accelerating rate, enabled by increasingly capable attractively priced devices, and by faster and more reliable wireless networks being deployed across wider areas. Expanding arrays of mobile applications that empower the mobile workforce with an abundance of business-critical functions are available at fingertips today. Android, an open platform, offers enterprises the liberty to develop applications in the platform without compromising security and governance. L&T Infotech is an early mover into this area and provides the following services to enterprises:

About L&T Infotech

Larsen & Toubro Infotech Ltd. (L&T Infotech), one of the fastest growing IT Services companies, is ranked by NASSCOM among the top software & services exporters from India in 2009. Ranked among 2009 'Leaders' in the prestigious Global 100 list by International Association of Outsourcing Professionals (IAOP), and a wholly-owned subsidiary of US \$ 9.8 billion Larsen & Toubro, India's leading engineering-to-financial services organization, L&T Infotech is differentiated by its unique Business-to-IT Connect, which is a result of its rich corporate heritage.

Ranked No. 5 globally among the Best IT Services Providers by Global Services in 2009, we offer comprehensive, end-to-end

software solutions and services in the following industry verticals: Banking & Financial Services; Insurance; Energy & Petrochemicals; Manufacturing (Consumer Packaged Goods/ Retail, High-tech, Industrial Products, Automotive) and Product Engineering Services (Telecom). Our new emerging verticals include Media & Entertainment and Life Sciences & Healthcare. We also deliver business solutions to our clients in the following horizontals/Service Lines: SAP, Oracle, Infrastructure Management Services, Testing, Consulting and Business Process Services. Our other Service offerings are: Business Analytics, Legacy Modernization, Applications Outsourcing, Architecture Consulting, PLM and Service Oriented Architecture.

This week our customer announced the launch of OMAP-based Android phone. This is the first product out of our joint engagement and is a true testament to the incredible hard work of the joint team. I would like to especially express my appreciation for the amazing dedication and hard work demonstrated by L&T Infotech's technical team. Our OEM is not an easy customer to satisfy, but your team came through with flying colors.

I firmly believe it will help take the partnership we have now established between TI and L&T Infotech in the Smartphone space to new heights.
