

Insurance Mobile Solutions

Customer Self Service - Health

Solution Description

The wellness management mobile solution improves collaboration and maintains both insurance and health related information about the user. The user can manage his PHR, access his EHR and update his insurance information at any time and from any location. This mobile availability of data empowers the consumer and allows for swifter transactions.

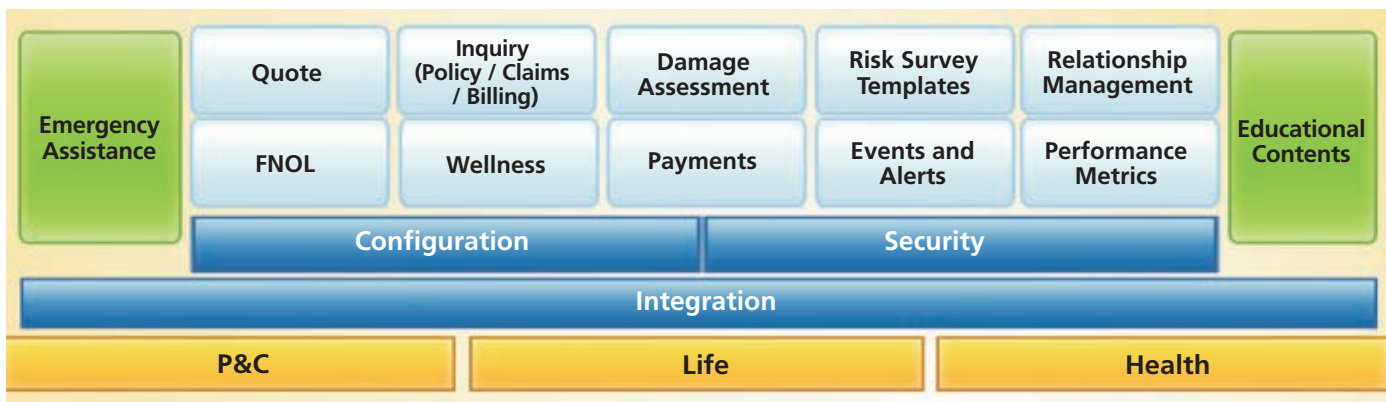

Features

- Quick access to list of in-network and out-of-network doctors
- Location map displaying direction from patients current location to doctors in the vicinity
- Easy access to vital information, required during emergency
- Mobile management of PHR and Wellness
- Easy maintenance of insurance details including plan and claims information

Business Benefits

- Real-time personal health data
- Continuous self-health monitoring
- Secured health data environment by adhering to HIPAA and HL7 standards
- Single IT platform for all healthcare entities
- Quick turnaround time for all transactions
