

# Insurance Mobile Solutions

## Risk Inspection

### Solution Description

During a typical underwriting life cycle, Risk Surveyors are required to have ready access to notifications as well as risk information. iMC – Risk Inspection provides a mobile interface that allows Risk Surveyors to view assigned cases and associated details such as insured / property information, report templates / requests and underwriting recommendations. Using this interface, Risk Surveyors can capture necessary risk data, conduct / record interviews and upload photographs / documents into the carrier's system.

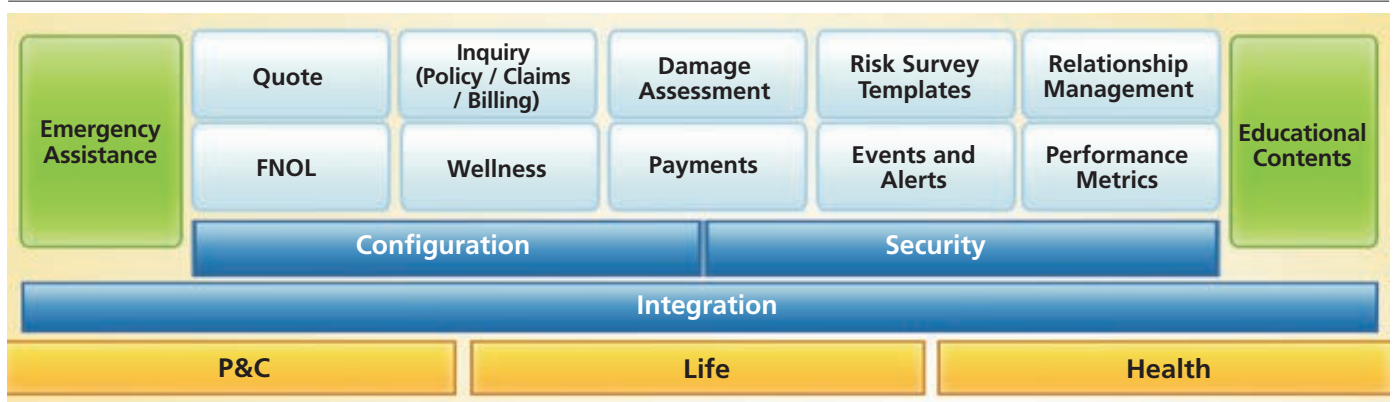

### Features

- Case management
- Inspection templates
- Capture and upload – documents, photographs, video clippings, voice recordings
- Information look up
- Location search

### Business Benefits

- Real- time communication
- Paperless environment
- Digitization of data
- Reduced turnaround time
- Improved productivity
