

**INDUSTRY****Construction
Equipment****Implementation of
Oracle E-Business
suite 11i****BUSINESS BENEFITS**

- Automated business processes
- Improved process efficiency by enhancing advanced features of the Oracle Apps 11i suite
- DBI to provide greater business insight and enhanced management reporting
- Ability to administer, access and analyze information online

L&T Infotech worked with a leading construction equipment manufacturer to implement Oracle E-Business suite 11i across business functions, using an accelerated deployment framework.

THE CLIENT

Our client is one of the largest conglomerates in the UAE, spanning 27 companies in a wide variety of industries

THE CHALLENGE

The client was seeking to automate multiple business processes and integrate multiple legal entity Set of Books (SOBs) into a single global entity.

THE SOLUTION

We implemented the Oracle E-Business suite 11i at various divisions in two waves. Each SBU was implemented as a single SOB with each legal entity/company under the SBU set of books with a rollup to a single global entity.

Highlights

Accelerated deployment framework for implementations / upgrade with dual shore delivery model comprising of:

- Conversion templates and scripts
- Multiple pre-defined interfaces
- Multiple pre-defined reports
- Ready-to-deploy configurations
- Ready-to-deploy packaged extensions

L&T Infotech is a 100% subsidiary of the US\$ 7 billion, technology-driven engineering and construction major, Larsen & Toubro. We offer comprehensive, end-to-end software solutions and services to leading companies across the globe. We provide the winning edge to our clients by leveraging our business-to-IT connect and deeply committed people.
