Financial data
consolidation and
management reporting

BUSINESS BENEFITS

- High quality Financial Data Quality Management (FDM), Hyperion Financial Management (HFM) transactions/response times for 500+ users
- Ensuring high 'availability' of servers, services and applications at all times

L&T Infotech worked with a global entertainment content company to implement Hyperion (HFM System 9).

THE CLIENT

The client is a leading global entertainment content company. They deliver entertainment through television, motion pictures and a wide range of digital media. With around 150 networks around the world, they have more than 88 million consumers.

THE CHALLENGE

Financial data consolidation and reporting was required for multiple subsidiaries. This included management reporting by geography and BS movement as well as source and adjustment tracking using 8 in-built and 4 custom dimensions.

The complex system had a large number of users and our teams needed to map multi-layered business processes.

THE SOLUTION

We implemented Hyperion Financial Management System 9 for centralized consolidation. Distributed data upload and data quality was ensured through implementation of Financial Data Quality Management (FDM) support for problem ticket resolution.

Activities included:

- 24x7 SLA based support for problem ticket resolution
- Continuous load monitoring for ensuring data availability
- Performance tuning for complex reports

- Data modeling and reporting analysis development responsibilities
- Maintenance of business rules, data validations, data entry forms, system management, server management, upgrade, configuration changes, IT SOX Controls, analytical reports through Smart View

L&T Infotech is a 100% subsidiary of the US\$ 7 billion, technology-driven engineering and construction major, Larsen & Toubro. We offer comprehensive, end-to-end software solutions and services to leading companies across the globe. We provide the winning edge to our clients by leveraging our business-to-IT connect and deeply committed people.
