financial control****BUSINESS BENEFITS**

- Cost reduction and better profitability
- Better financial consolidation and control
- Integration of business processes and better information management
- Better inventory management, forecast accuracy and quick response to business dynamics
- Optimum resource utilization, improvement in supply chain efficiency
- Robust Customer Relationship Management
- Improvement in employee productivity and administration
- Uniform system environment and process standardization

L&T Infotech carried out an end-to-end SAP implementation for a diversified organization. The project delivered multiple benefits, including optimized costs, financial consolidation and control.

**THE CLIENT**

Our client is a diversified organization with an annual turnover of more than US\$ 4 billion and 40,000+ employees.

**THE CHALLENGE**

The primary need for this diversified group was seamless integration across companies for financial consolidation, better control and monitoring. It was also critical to have standardized Human Resource business processes. Accounts were to be consolidated at two levels and an effective flow of information was to be facilitated.

**THE SOLUTION**

We carried out an end-to-end implementation of SAP ERP ECC 5.0 with the complete suite of SAP modules and SAP CRM for three diversified companies.

**HIGHLIGHTS**

- Execution of rollout of FI, CO and HR modules in 70 company codes in 2 months
- Template preparation for FI, CO & HR modules to be rolled out in 21 other business divisions

- eCATT and Solution Manager based testing resulting in reduced testing time and minimize manual efforts. This improved the quality of the upgraded system.
- Rollout of FI, CO and HR modules to 21 divisions (70 company codes)
- Deployment of Organizational Change Management (OCM) with special emphasis on communication and impact management
