

**INDUSTRY****Energy &
Petrochemicals**

Providing a truly
integrated view of
financial and
operational data

BUSINESS BENEFITS

- Reduced cost of supporting and improving global IT systems
- Better decisions based on accurate and consolidated customer, market, and product profitability data provided on a more timely basis
- Truly global view of financial and operational data

L&T Infotech carried out a global rollout for a Fortune 10 energy company to consolidate disparate systems across the world.

THE CLIENT

Our client is one of the world's leading oil companies. Based in the US, their activities span Oil & Gas exploration, refining and marketing of oil, lubricants, fuels, petrochemicals and power production businesses.

THE CHALLENGE

The client was seeking a strategic downstream initiative that would standardize business processes, harmonize business data and consolidate over 80 business systems and 50 HR systems around the world. A number of complex, non-SAP systems were also involved.

The end objective was to deliver common business platforms that would streamline operations, improve processes and significantly improve Downstream's financial performance and functional capabilities.

THE SOLUTION

This was a complex, multi-vendor, multi-country, multi-language project.

Highlights

- Upgraded and replaced systems in 109 countries
- Implementation of 17 different SAP modules
- Replaced 215 systems around the globe.
- Standardized business processes and consolidated SAP systems in strategic geographies

- Delivered Fuel Order Fulfillment (FOF) for marketing in Asia and Africa
- Consolidated HR into one global system

L&T Infotech is a 100% subsidiary of the US\$ 7 billion, technology-driven engineering and construction major, Larsen & Toubro. We offer comprehensive, end-to-end software solutions and services to leading companies across the globe. We provide the winning edge to our clients by leveraging our business-to-IT connect and deeply committed people.
