

Business Enabled Accelerated Consolidation Framework

Businesses are getting more complex due to Mergers & Acquisitions, Expansions, Complex Landscapes, which lead to disoriented processes, customized processes, conflicts in change adoption & disparate systems. Simplifying these businesses is a need of the hour. Our proprietary BEACon Framework is a set of practices, which accelerates ERP Consolidation for Complex Landscapes. It focuses on Business Process-driven Optimization, which drives harmonization across business landscapes.

Key Focus Areas

Process Standardization & Harmonization

SCAMPER: Helps in carrying out fit-gap analysis, using a systematic approach of aligning business processes with SAP best practices.

Enablers

MOSAIC™ Profiler, MOSAIC™ Assurance and Compliance, Business Process Repository

Change Management - Role Structuring

PROSCI™ Framework: Integrated approach to managing change, is aligned with the industry. Aimed at addressing employee resistance through "ADKAR" Model, and robust tools & templates.

Enablers

Best practices from PROSCI™ Framework, and our rich experience of several change initiatives

Health Check Services

// Enables organizations to perform proactive & standardized assessment, helping create a clear view of current landscape.

// Actionable recommendations, and a roadmap for successful implementation and higher satisfaction.

Enablers

Business Process Repository, MOSAIC™ Assurance and Compliance

Instance Consolidation

// Conversion from multi-layered, independent & different organizations, to a synchronize connected organization structure.

// Business Process Standardization and System Integration

// Application Portfolio Rationalization

Enablers

SHaPE Framework, MOSAIC™ Profiler

Client

Global Life Sciences Major – ASPAC Consolidation & Rollout

Objectives

- Business process harmonization across countries, business process re-engineering.
- Common transactional system for supporting common processes, data standards and compliance requirements.

Challenge

- Process integration, with a highly customized landscape, and rollback requirement for business continuity.
- User base of 1500+ spread across geographies.

Solution

- Architected the solution by formulating a baseline template for ASPAC region with BEACon framework.
- SHaPE Framework approach for discovery and fit-gap analysis in disparate landscapes.
- Proprietary tools to accelerate phased rollouts of the common regional template to ASPAC countries.

Benefits

- 99.9% accuracy in customer shipment.
- Fully integrated solution, providing customer connectivity, supply chain integration & common dashboards.
