## Gartner positions L&T Infotech as a 'Niche Player' in Magic Quadrant for SAP Application Management Service Providers, Worldwide Report

**Mumbai (India), November 11, 2014:** L&T Infotech, a global provider of information technology services and solutions and a wholly-owned subsidiary of the USD 14.3 billion Larsen & Toubro (L&T), today announced that Gartner, Inc. has positioned L&T Infotech as a 'Niche Player' in its 'Magic Quadrant for SAP Application Management Service Providers, Worldwide' report dated October 16, 2014, by Frances Karamouzis, Gilbert van der Heiden and Kris Doering.

Gartner evaluated 16 providers' capabilities to supply SAP application management services. The providers were evaluated on their ability to deliver a comprehensive set of SAP application management services across the SAP product line; insights across industries for SAP application management service decisions; and their investments in industry-specific offerings, SAP application product line, and intellectual property (IP), tools, templates and accelerators.

"We believe Gartner's recognition is a testimony of our ability to offer niche transformational services to our clients. Our sharp SAP approach stems from our parent company, L&T, and is today expanding its reach across sectors," said Mr. V.K. Magapu, Managing Director, L&T Infotech.

L&T Infotech focuses on developing latest line of cloud-based pre-configured business solutions, and designing add-ons for enabling business transformation.

"Gartner estimates that end-user spending on application outsourcing worldwide will be worth \$ 54 billion in 2014."

### About the Magic Quadrant

Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. Gartner research publications consist of the opinions of Gartner's research organization and should not be construed as state-
