

Environmental, Health and Safety Policy

At LTI, we incorporate global best practices in environment, occupational health & safety systems, processes, standards and best practices, in-line with our business philosophy, strategy and operations. We emphasize strong focus on awareness among employees and all stakeholders which includes vendors, visitors and other interested parties.

To support our vision, we ensure that health, safety and wellbeing are an integral part of our business activities and we will:

- continue to comply with all applicable environmental, health & safety compliance regulations and requirements.
- drive programs that reduce our dependency on natural resources, minimize waste generation and lower environmental emission.
- develop and drive Occupational Health & Safety (OH&S) objectives to prevent occupational hazards & risks, injuries and illness.
- drive environmental, health and safety awareness programs and embed culture of safety among employees, visitors, vendors through training, active participation, communication and consultation.

A handwritten signature in black ink, appearing to read 'Sanjay Jalona', is written over a light blue, semi-transparent rectangular background.
