

REDaxis: Bringing insights to actions

REDaxis, is a Comprehensive Insights-driven Accounts Receivable Suite, that provide key stakeholders with insights that enable them to identify actionable tasks, with potential to save multiple millions through risk mitigation and working capital reduction. By adopting a persona-based design thinking approach & leveraging technology capabilities in data science, REDaxis enables reduction in Day Sales Outstanding (DSO) & Unearned Cash Discounts (UCD), thereby realizing exponential business outcomes with minimal efforts.

How Can REDaxis Help?

Challenges

- Lost time between request-to-data-to-insights delivery-to-actions
- Inefficient user experience in democratizing analytics
- 80-90% of time spent in data collation and preparation, instead of analysis
- Scarcity of analytics and data science saviness

Highlights

- Action oriented intuitive customer experience
- User Interface personalized to roles and business goals
- Inherent design thinking approach for continuous opportunity identification
- Architected to minimize data collation efforts and maximize scientific data analysis
