

Let's Solve

Case Study

Application Security Assessment under
Advanced Threat and Vulnerability
Management

A Larsen & Toubro
Group Company

Client

Leading US Multinational Financial Service Group

Challenges

The client faced following challenges

- Identified applications were not included previously as a part of the security assurance program of the bank
- The bank required faster turn-around times and detailed elaboration of the test results that could help the stakeholders close the identified vulnerabilities

LTI Solution

- Performed application security testing, SAST & DAST including manual tests, as per OWASP,SANS and WASC guidelines to meet the security compliance needs
- Detailed analysis including the business impact on exposure related to vulnerabilities with automated tracking of status between subsequent tests

Business Benefits Delivered

- 200+ assessments till date leading to identification and mitigation of 25+ unique security coding vulnerabilities across applications
- Enabled the bank in building secure applications by partnering in the early stage of Software Development Life Cycle (SDLC)
