Case Study
Security Assessment of IoT and SCADA Components
Client
Fortune 50 Oil and Gas Major

Challenges
The client faced following challenges
• Multiple plant locations with independent infrastructure, applications and processes
• Absence of roadmap to achieve compliance and enhanced cyber security maturity levels

LTI Solution
• Perform cyber security assessment of the in-scope components across the identified plants
  & Identify gaps
• Formulation of the roadmap including the improvement areas for enhancing the security posture
  of the plant level with prioritization of action items

Business Benefits Delivered
• Implemented industry best practices in automation systems security
• Integrated view of the security status of automation systems with risks appropriately managed.
• Ability to respond centrally in an effective way to any actual or suspected cyber incident
  affecting automation systems

LTI (NSE: LTI, BSE: 540005) is a global technology consulting and digital solutions company helping more than 300
