

Let's Solve

LTI – Oracle Software-as-a-Service (SaaS)

One of the key focus areas for CIOs today is laying the foundation for digital transformation, by migrating applications to SaaS models. Oracle has emerged as a leading SaaS vendor, with its diversified products across functions such as ERP, HCM, SCM, Customer Experience, Enterprise Performance Management.

In this disruptive environment, we at LTI strive towards providing innovative and quality Oracle SaaS solutions to our clients which spins more around business and less around IT. LTI is committed towards investing in Oracle SaaS Solutions, building competency and providing best-in-class and cutting-edge solutions to its customers.

A Larsen & Toubro
Group Company

Our Differentiators

-  Unique tools and utilities, including data migration workbench, automation scripts, reusable assets and light Java stubs that enable faster cloud migration
-  Part of Cloud Advisory Board – Actively involved in defining Cloud Product Strategy and Roadmap
-  Over two decades of experience in legacy ERP suites, backed by highly experienced business analysts and Design Thinking specialists
-  Ready infrastructure for Center of Excellence (COE)– Dedicated servers for training/sandbox, POCs, demo, tools and accelerators
-  Ready-to-use solutions built across various engagements and evolved through CoE refinements; key assets with track record of successful implementations and levers for predictability of results

Experience

LTI has delivered business value to its clients on various occasions. Some of them are listed below:

- **60%** shorter O2C processing time in an CRM integrated ERP Cloud implementation at a fast growing medical device manufacturer
