Case Study
Digital Center of Excellence Setup for a Leading Media Conglomerate
Client
Client is a US-based multinational media conglomerate, and one of the largest broadcasting, cable, and media companies globally.

Challenges
- Perform end-to-end testing to ensure functional and performance assurance of streaming content (news, music, games), which is updated daily on digital platforms.
- Ensure application compatibility with browsers, platforms, devices and Operating Systems.
- Improve quality of live websites (news, music, games), which are updated daily, and globally accessed by viewers of all age groups.
- Ensure high quality of data integrated from different applications into a centralized data warehouse.

LTI Solutions
- Set up a Testing Center of Excellence (TCoE) to deliver end-to-end testing requirements of digital applications.
- Ensured adequate test coverage with LTI’s Jukebox (repository of ready-to-use business & test scenarios).
- Implemented risk-based, metrics-driven testing approach and API test automation.
- Performed compatibility test across multiple browsers, platforms, devices & OS, to reduce turnaround time and prepare for new product launches by LTI’s Test Lab & Device Bank.
- Functional, regression and mobile testing of a range of web applications and devices.
- Conducted digital assessment for websites, and generated detailed website health report along with recommendations, using LTI DiCE (Digital Customer Experience Analysis tool)

Business Benefits Delivered
