

Digital Economy and API Management:

Revolutionizing digital market place

Digital transformation with API Management enables enterprises to improve their security posture and increase revenue by data monetization. This way, enterprises can be positioned for adopting new-age digital technologies, while utilizing the immense data to boost the revenues further.

LTI's API Proxy Configurator

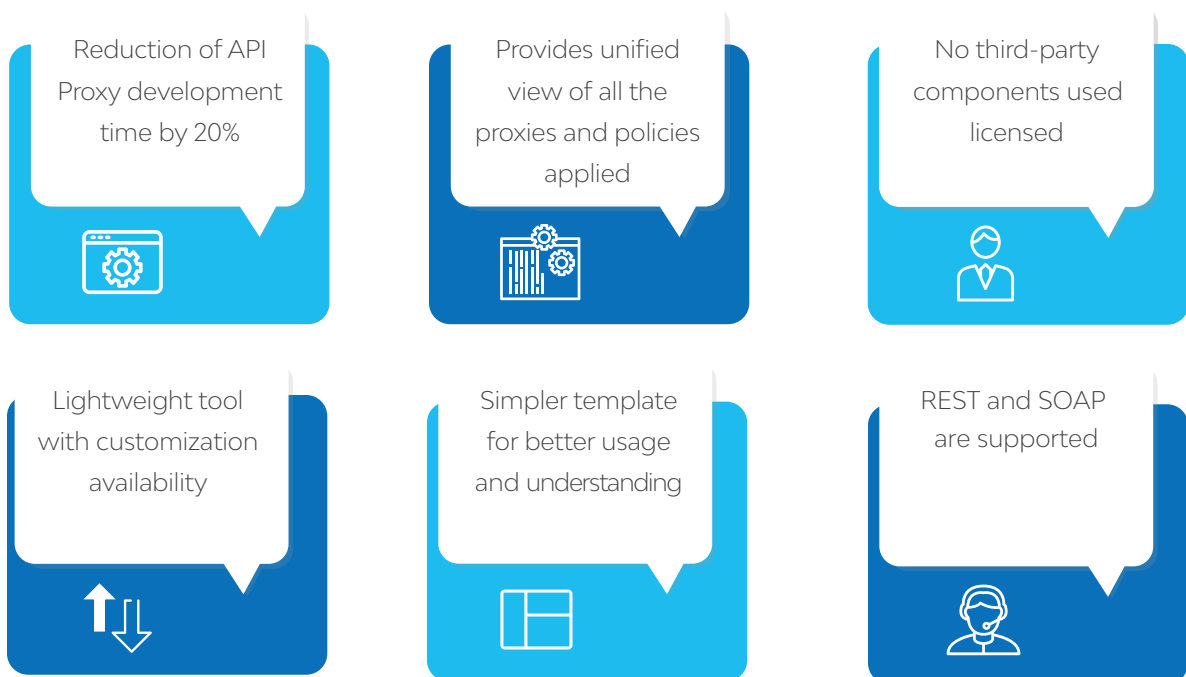

This solution enables organizations to implement governance, security and traffic management policies consistently across the enterprise landscape. It also enables to quickly build API-based implementations for monitoring and modifying the behavior of APIs, with security and traffic management policies.

Solution Highlights

- Single-click proxy generation
- Automatically creates most widely used API policies on Security and Traffic Management
- Customizable for proxy creation
- Enhances collaboration between business and developer

Benefits

LTI (NSE: LTI, BSE: 540005) is a global technology consulting and digital solutions company helping more than 300 clients succeed in a converging world.
