

Let's Solve

## Enabling secure remote working for 30,000 employees globally within 96 hrs

Sudden disruptions to the business scenario due to the global lockdown raised challenges to continuity of operations. LTI ensured a 95% workforce productivity within 4 days to ensure that client business operations were not adversely impacted.

A Larsen & Toubro  
Group Company

## Client

LTI – A global Software and IT systems firm with a workforce of over 30,000 personnel spread across 29 delivery centers worldwide.

## Business Challenges

The business disruption caused by the lockdown in response to the COVID-19 pandemic meant that suddenly all employees who were earlier not enabled for remote working had to be made productive

All essential employees had to be connected to the network regardless of whether they had company issued IT assets or not

Client specific requirements for multi factor authentication, data privacy and compliance had to be maintained

## Solution Highlights

- ✓ Rapid ramp up of network infra and bandwidth to support the additional enterprise remoting requirements
- ✓ LTI leveraged Azure's Virtual Desktop Environment to quickly build and deploy environments which were in line with the client requirements for data protection and security to allow employees to access the enterprise with their own machines
- ✓ Rapid imprinting of assets with required security patches and images

## Business Benefits

### 60%

Of on-premises workforce enabled for remote productivity within 96 hours

### 98%

Of employees are productive remotely with zero risk to clients

Zero data breaches due to autoscaling of security

LTI (NSE: LTI, BSE: 540005) is a global technology consulting and digital solutions Company helping more than 420 clients succeed in a converging world.
