# Greenfield AWS Deployment - Modernization Using Kubernetes

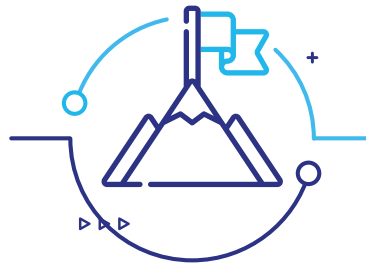

A Larsen & Toubro  
Group Company

## Client

One of the top Insurance Companies in India

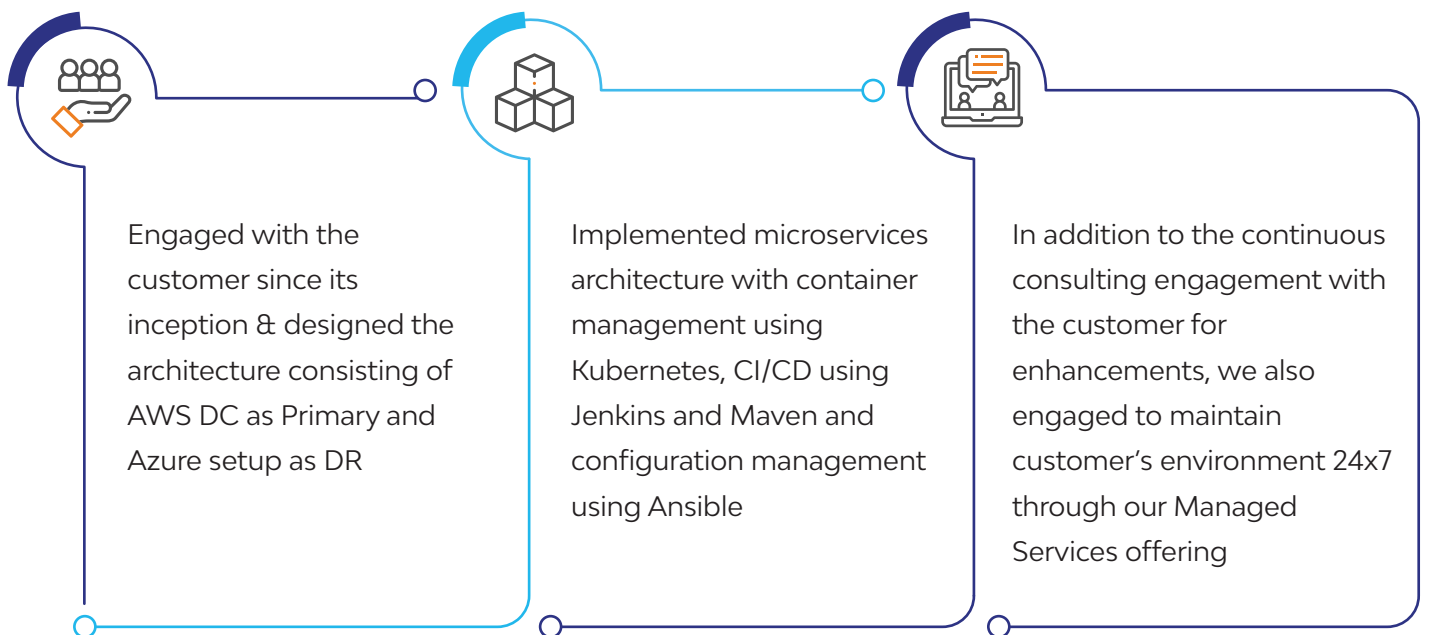

## Challenge

The customer wanted to deploy one of their core insurance applications on AWS as they needed quicker scaling to accommodate their growth

They had created the microservices for the NON-ABS insurance applications, which they want to containerize and deploy on Kubernetes cluster (AWS)

## LTI Solution

# Business Benefits

The customer was able to successfully deploy the ABS application to AWS fully complying with vand was successfully migrated from LDAP server to Managed AD on AWS which resulted in fewer downtimes and application performance has been increased by **5x**

**500+** VMs scaled using new architecture

**20,000+** Transactions handled successfully by agent portal per day

Deployment time has been reduced from **2-hr to 5-min** after automation
