LTI Win with PAREXEL

A Larsen & Toubro
Group Company

APPROACH

Customer Situation

The Customer: PAREXEL is a global provider of biopharmaceutical services. It conducts clinical trials on behalf of its pharmaceutical clients to expedite the drug approval process.

Customer Pain: PAREXEL wanted to provide highly available, scalable and flexible Azure environment for their clients with quick turnaround time. Delivering infrastructure with eco-system integration and providing end to end support to their client was out of their core business area and higher in overall cost.

Solution

LTI partnered with PAREXEL to develop their cloud-based strategies, including design, architect and implement their Azure Environment following Microsoft's best practices by understanding their business and technical requirements.

LTI automated and templated their environment provisioning and integration journey with Azure DevOps, ARM Templates, Runbook and DSC to achieve more than 50% faster turnaround time-to-market. LTI is providing top notch support to PAREXEL Cloud round the clock through dedicated cloud delivery center.

IMPACT

Key Drivers

- LTI's partnership with PAREXEL and played a vital role to onboard their client environment to Azure with a much faster turnaround
- Reduction in the overall cost of infrastructure by 40% and reduction in recovery time by 70%
- Increased virtual footprint and reduced physical, thereby reducing 50% administrative overheads

Win Insights

This is a great example of the LTI team providing end-to-end support to PAREXEL on their cloud journey. We worked to build their cloud strategy, roadmap, design and architect, implement and operationally support with Intelligent Automation.

Value Provided, Outcomes

- LTI implemented their Azure infrastructure solution integrating with third party products like Cisco FTDv, Vormetric, Rapid Nexpose, Commvault, Qradar, etc
- LTI provides single window operational support to entire Cloud Infrastructure along with third party tools

Lessons Learned

By solving the customer's pain of cost and scalable environment with rapid deployments, we were able to extend the solution to other regions of PAREXEL. And it also opens the door with additional accounts for significant Azure usage moving forward.
