

LTI

Let's Solve

Vehicles for life

LTI Win with REV Group

A Larsen & Toubro
Group Company

APPROACH

Customer Situation

The Customer: The REV Group is an American manufacturer of specialty vehicles the in Fire & Emergency, Recreational Vehicles, and Bus & Industrial sectors. The company has an annual revenue of over \$1 billion.

Customer Pain: REV Group's existing architecture couldn't meet the infrastructure demand and the current infrastructure was limited on hardware and could not cater the performance requirement of the application. Investing on a highly available infrastructure without assured returns was a challenge. The existing on-premise DR solution had high network latency & low response time.

Solution

By using Azure, REV IT gets the enterprise capabilities it needs to receive an on demand scalable infrastructure and ensure business continuity, while it only pays for the services it consumes. Without Azure, it might have cost them 10 times more to build an environment that could cope with the future business requirement.

The company uses tools such Azure site recovery, Azure Backup, and Azure Automation to streamline critical IT management functions.

IMPACT

Key Drivers

- REV IT saved time, effort & money on deploying a high performance, scalable, Agile & fault tolerant SAP platform in Azure
- Implementing DR in azure helped them to reduce the overall cost of the infra expenditure
- Moving to azure enabled them to scale much faster and more cost-effectively than it could in On-premise datacenters

Win Insights

This is a great example of LTI team providing migration & operational support to REV IT on their cloud journey.

Value Provided, Outcomes

- With Azure, we have changed the Infrastructure model and dramatically reduced the build time. Ease of operation was achieved by moving to Azure and reaping the benefits of cloud economics
- They have a scalable & cost-effective environment with on demand DR solution

Lessons Learned

The project helped to bring in more SAP to Azure migrations

LTI (NSE: LTI) is a global technology consulting and digital solutions Company helping more than 400 clients succeed in a converging world. With operations in 31 countries, we go the extra mile for our clients and accelerate their digital transformation with LTI's Mosaic platform enabling their mobile, social, analytics, IoT and cloud journeys. Founded in 1997 as a subsidiary of Larsen & Toubro Limited, our unique heritage gives us unrivalled real-world expertise to solve the most complex challenges of enterprises across all industries. Each day, our team of more than 30,000 LTites enable our clients to improve the effectiveness of their business and technology operations and deliver value to their customers, employees and shareholders.
