

Let's Solve

 A Larsen & Toubro
Group Company

Computer System Validation for a Multinational Company of Healthcare Products

Client

The client is a global leader in providing inventory management services for drugs, biologics, and consumer health products and serves customers worldwide.

LTI Solution

Helped set up CSV test flow automation in Valgenesis using validated connectors to automation tools for periodic review process

Maintained electronic records and ensured approvals through electronic signatures.

Implemented a comprehensive strategy of controls, audits, system validation & documentation in compliance with GXP and federal regulation.

Enabled automated planning, managing, electronic execution and controlling of different validation entities.

Performed a high-level risk assessment to ensure documentation of basic systems and identification of validation requirements such as security and backups.

Business Benefits

Reduced validation cycle time by 50% through CSV test flow automation in Valgenesis

1

Higher compliance with comprehensive processes

2

Improved quality of deliverables

3

Increased efficiency by generating traceability matrix and management dashboards

4

Improved data integrity with process consistency using tool-based validation approach

5
