

Automated Expense Management Solution

Employees are usually not fully aware of company policies and procedures; and are typically prone to make errors, especially while raising expense claims in the system. This makes the entire process even more complicated, time-consuming and cumbersome. Therefore, it is imperative to provide them with a unified and intuitive solution that manages their claims seamlessly, to provide a hassle-free experience and increase their productivity.

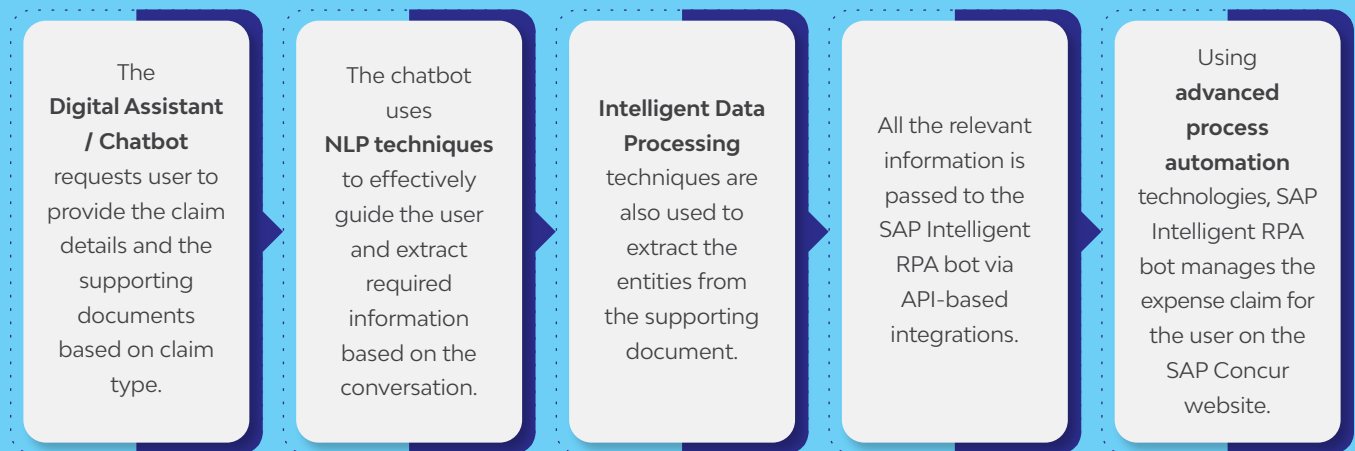

LTI's Automated Expense Management solution takes user inputs via a digital assistant, providing a personalized user experience for your employees. It further leverages advanced OCR to extract the relevant information from receipts or invoices and manage the claims flow in SAP Concur using SAP's Intelligent RPA, thus enabling a faster turnaround in the entire claims process.

Solution Highlights

- Guided user interaction via Digital Assistant with advanced conversational capabilities
- Ease of integration into any channel like website
- Intelligent document processing for classification and extraction from supporting documents
- Leveraging SAP Intelligent RPA to enable process automation on the underlying applications

How it works

Business Benefits

Enhanced
end user experience

Increased
employee productivity

Reduced
turnaround time

Enhanced
quality control and better data accuracy

Zero
human intervention

LTI (NSE: LTI) is a global technology consulting and digital solutions company helping more than 400 clients succeed in a converging world.
