A Larsen & Toubro
Group Company

Case Study

Business Transformation through Automation of Rate Table for US-based P&C Carrier

The client is a leading US-based Specialty Insurance provider for property and casualty, dealing in residential and recreational products.

Business Challenges

- ☑ Consumption of huge amount of hours for the rate table task configuration due to multiple configurations needed for each state and multiple policy lines.
- ☑ Increased defect load due to sheer volume of manual work with limited timelines.

LTI Solutions

1

Built Automation tools to create rate tables by building a Java-based web application for generating data with proper formatting for the rate tables

2

The tool handled all the exceptions encountered in the business requirement and generated rate tables with zero errors

Increased accuracy of configuration was achieved with **reduced number of defects**

Web application reduced almost **95% manual efforts**

Time taken to configure policy lines per state reduced from about **250 hours to 5 hours**

The configuration of rate tables was **achieved with a couple of user clicks**

LTI (NSE: LTI) is a global technology consulting and digital solutions Company helping more than 400 clients succeed in a converging world. With operations in 31 countries, we go the extra mile for our clients and accelerate their digital transformation with LTI's Mosaic platform enabling their mobile, social, analytics, IoT and cloud journeys.
