

Let's Solve

 A Larsen & Toubro  
Group Company

Case Study

---

## **US-based Insurance Solutions Provider enables Centralized Management of Privileged Accounts**

## Client

Our client is a leading provider of a comprehensive suite of solutions, ranging from traditional life insurance and annuity reinsurance, to acquisition support for solving complex balance sheet needs.

## Challenges

- Deploying a centralized managed system to monitor and track access to critical servers.
- Identifying and decommissioning orphan accounts existing in the critical servers and establishing a proper approval mechanism to access the critical server.
- Storing all the privileged accounts in centralized vault and avoiding insider threat by providing frequently randomized passwords for critical accounts.

## LTI Solution

- Enabled centralized management of privileged accounts by discovering, managing, auditing, and monitoring privileged accounts of all types.
- Improved security posture with role-based access to privileged accounts.
- Scanned, identified, and profiled all assets and applications by auto-onboarding privileged accounts.
- Stored, managed and rotated privileged account passwords, eliminating embedded credentials and ensuring password strength.
- Logged and monitored all privileged credential activity and sessions for compliance and forensic review.

## Business Benefits

Prevented insider attacks, privileged account escalation, and third-party access issues.

Restricted privileged users' activities based on assigned roles.

Centralized management of privileged accounts associated with assets and tracking existence of orphan accounts within the assets.

Prevented insider attacks, privileged account escalation, and third-party access issues.

Prevented insider attacks, privileged account escalation, and third-party access issues.

**LTI (NSE: LTI)** is a global technology consulting and digital solutions company helping more than 400 clients succeed in a converging world.
