A Larsen & Toubro
Group Company

Case Study

E-procurement Platform Enabling E-bidding of Power for Indian Power Distribution Company

LTI intervened to establish a transparent system in the highly regulated energy market for an Indian power company.

Client

The client is a state-run power distribution company based in India.

Challenges

The client engages in bidding of energy contracts in a highly regulated energy market. In order to make gains at the right opportunity, the company needs to have access to a repository, compliance with strict regulatory mandates and latest security features. The client approached LTI with the following main requirements –

- To have an efficient tendering system, which can act as a central repository for maintaining contracts.
 - To ensure a transparent and smooth bidding process adhering to government guidelines.
-

LTI Solution

LTI developed a solution to offer an integrated and comprehensive Electronic Government Procurement System, designed specifically for the public sector and government procurement, including power purchase and sale:

- The system deals with all types of tenders and procurement requirements (public or private sector), whether for works, products or services and supports e-tendering, auctions/reverse auctions, e- banking and catalogue purchases.
- 100% tamper-evident environment with digital certificate management.
- Technical & financial evaluation and online tender award workflow.

Benefits Benefits

- **User-friendly, eProcurement platform, with rich security features.**
- **Data-centric architecture with configurable workflows to match customer requirements.**
- **Meets compliance mandates.**

Technology

ORACLE EBS

LTI (NSE: LTI) is a global technology consulting and digital solutions Company helping more than 400 clients succeed in a converging world.
